"A Grammar of Tshangla" is the first major linguistic description of Tshangla, a Tibeto-Burman language spoken in Bhutan, northeast India, and southwest China. Written from a functional-typological perspective, it contains a wealth of illustrative examples both from elicited data and from spontaneously generated texts. It is a truly comprehensive description, including sections on phonology, lexicon, morphophonemics, morphosyntactic structure, clause-concatenating constructions, as well as discourse-pragmatic features. The volume will be of interest to language students, and to linguists and ethnographic scholars seeking to understand the Bhutanese and South Asian linguistic situation. The large amount of raw language data presented here make this "Grammar of Tshangla" an indispensable tool for students of Tibeto-Burman comparative linguistics and morphosyntactic theory in general.

The Craft of Argument is designed to help integrate the skills of writing, critical thinking, and arguing for the purpose of enabling the writer to write arguments that are clear, sound, and persuasive. Integrating the skills of writing, critical thinking, and arguing in order to write arguments that are clear, sound, and persuasive is the key benefit of The Craft of Argument. Part 1 presents an overview of the nature of argument. Part 2 offers a detailed discussion of the five elements of argument (finding and stating a claim; reasons and evidence; reporting evidence; acknowledgments and responses; and warranting claims and reasons). Part 3 focuses on meaning and causation. Part 4 emphasizes language-how to write clearly and vividly, and how to use language persuasively. Part 5, Readings, comprises a wide range of sample arguments for analysis and springboards for discussion and further writing. General Interest: Improving Writing

Idea and Expression

Madurese is a major regional language of Indonesia, with some 14 million speakers, mainly on the island of Madura and adjacent parts of Java, making it the fourth largest language of Indonesia after Indonesian, Javanese, and Sundanese. There is no existing comprehensive descriptive grammar of the language, with existing studies being either sketches of the whole grammar, or detailed descriptions of phonology and morphology or some particular topics within these components of the grammar. There is no competing work that provides the breadth and depth of coverage of this grammar, in particular (though not exclusively) with regard to syntax.
